

My neighborhood in Philadelphia

The following maps overlay a drawing I did of my old neighborhood in Philadelphia with other features downloaded from phila.gov, including hydrology, parks and recreational space, tree network, bike network, and neighborhood foot retail scores. I conceived my neighborhood as bound by the Schuylkill River, Rittenhouse Square, and Fitler Square, and it was fun to see how that plays out in these maps.

Parks and Tree Network

Bike Network

Neighborhood Food Retail: High Produce Stores per 10,000 Residents
